

Outdoor Explorers

Youth Day Camp

More Green time, less screen time! Join Guineafowl Adventure Company for a week of exciting regional day hikes!

We're guiding the next generation of responsible outdoor enthusiasts through experience-based youth day-camps.

Campers will travel to different habitats across northeastern Massachusetts and southern New Hampshire, exploring the natural world and challenging themselves on hikes of varying distances and difficulties. Each day we will travel to a unique and beautiful landscape and allow kids to explore their environment while building camaraderie and gaining beneficial hiking skills.

We believe that when young people are given the freedom to explore, interact, and reflect, they discover profound connections—to nature, to each other, and to themselves. Our educational philosophy embraces experiential learning as a transformative journey to encounter the natural world holistically, with curiosity, wonder, and engagement. Immersive experiences in nature transcend traditional classroom boundaries and awaken opportunities for personal discovery, ecological awareness, and joy.

About Guineafowl Adventure Co.

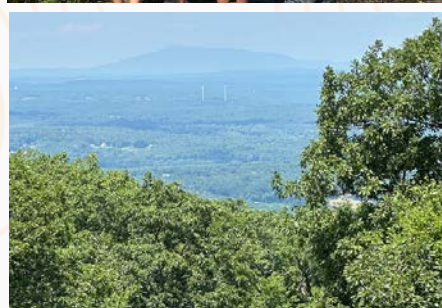

Guineafowl Adventure Company is Boston's only full-service guided hiking business, offering outdoor programming across schools, enrichment programs and summer camps.

Dave Fatula, founder of Guineafowl Adventure Company, is a lifelong outdoorsman and New Englander committed to responsible recreation.

Explore Nature,

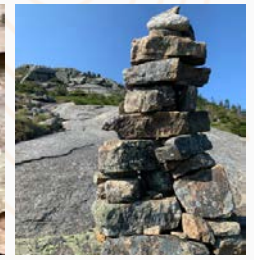

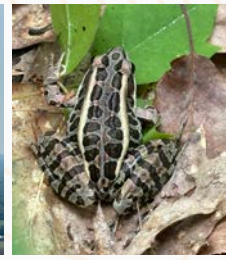

TOGETHER.

Example of a 5-Day Camp Schedule

Day 1 – Intro to Exploring!

We'll take the morning to get to know each other, hand out day packs and hydration bladders and learn how to use them. After lunch, we will head off-site to explore a nature area close to camp, take an easy hike to understand how to explore responsibly, and get a sense of the group's ability and pacing.

Day 2 – Explore the Mountains!

A full-day hiking trip to a mountainous area of choice (based on the campers' hiking experience and proximate distance from camp). We will hike to a summit area where campers have the chance to climb rooty, rocky single track trails and get the reward of incredible above-treeline views for their efforts!

Day 3 – Explore the Skyline!

A trip to the Blue Hills Reservation, where we will explore the rugged Skyline Trail, one of the most technical hiking trails in Eastern Massachusetts! See incredible views of Boston and the Atlantic Ocean from multiple above-treeline locations on this exciting day trip.

Day 4 – Explore Rocks & Waterfalls!

Our fourth day of camp takes us to Purgatory Chasm, where we will explore rock formations such as caverns, caves, waterfalls, and flowing streams. Kids will see massive rock formations and natural walls, and even climb into shallow natural caves.

Day 5 – Explore the Water!

Our final full-day trip will take us to Walden Pond in Concord, MA. There is an incredible trail system around and behind the pond, with railroad crossings, lots of bogs and marshes, and the chance to wrap up the day with a swim in Walden Pond (*weather dependent*).

What's included:

- Round trip transportation from camp to our nature destinations each day.
- Safety-certified, experienced guides at a ratio of one Guide per six campers
- Hiking Daypack equipped with a 2-liter hydration bladder and tube, with room for extra food and clothing.
- Guides carry convenience and safety items with them for the group (first aid, sunscreen, bug spray, hand sanitizer, tissues, etc.)

What kids should bring:

- Closed-toe hiking boots or athletic sneakers with good tread. Please, no flip-flops or Crocs.
- Clothing appropriate to be comfortable outdoors for a full day, dependent on the weather conditions.
- Lunch and snacks for the full day – please remember, we burn a lot of calories hiking and exploring, so please provide them plenty of energy!
- A love of exploring!
